16th Annual Charity Golf Tournament

March 8-9, 2025

Rules for a 9-Hole Four Person Scramble

A scramble in golf has members of a foursome competing as a team against all other teams in the field. Each golfer hits his or her ball throughout the round.

- All four players tee off (shot #1) and the captain of the team determines the best lie from which all four players will hit their next ball (shot #2). *(The shot selected by the captain does not have to be the longest hit. It may be a better lie or a shorter hit that does not incur a penalty.)*
- This procedure is followed on every shot for the remainder of the hole, including putts.
- Once any ball is holed out, no further strokes need be taken.
- Teams will be handicapped based upon submitted GHIN handicapped index or average 9 hole scores submitted in the team registration. Teams with the lowest total net score in each flight win.

Two rules for this tournament apply:

- 1) Minimum drives per golfer = 2
- 2) You can move your ball to within one club length of the selected ball position for the next shot, but no closer to the pin, and it must stay in the same playing condition. If it is in the rough or in a hazard it must be played from that condition (subject to free relief from abnormal course conditions, or penalties for moving the ball from a standard hazard such as water or a bunker).
